

# The Quinceañera PARTY

Miranda's Travel Adventures is a series of international travel books written for school-age readers. Miranda dreams of traveling to different countries. In her dreams, she makes friends with young people who tell her the real facts about their history, culture and land.

Miranda is happy to experience life in these countries. However, just when she is having the most fun with her new friends, something always goes wrong! This time, she is a suspect in a jewelry theft at a 15th birthday party, (quinceañera), in Colombia! How can she save herself when she hardly speaks Spanish?
